

Dear Clatsop County Commissioners,

Sept 23,2021

I just took a few minutes to review the current complaint log that the county has for all of Clatsop County. There are a few glaring realities...

1. There has been 1 complaint per month for the last 2 years in Falcon Cove. That's 1 complaint per 30 days for the past approx 730 days. 1 complaint per 100 households. 1 complaint per 400 people per 30 days. That's 1/30th of a complaint per day.
2. Nine out of the total 24 complaints (in 2 years for FC) came from the same person or household. That's almost half of the total complaints coming from the same person.
3. About 90% or more of the complaints in FC were unwarranted and dismissed.

I am having a hard time understanding the urgency to change and alter our current ordinances based on this data. It is so glaringly obvious that there are a few unhappy people who are being especially vocal about their isolated negative experiences while MOST of us are happily renting and living here, following the rules, being good stewards of our community etc etc.

Please acknowledge and take heed of this data as you discuss making changes that will affect ALL of us.

I am grateful for your commitment and efforts in all you do for our entire County.

Thank you,  
Carol Harn
